Inspection Result: Closed

PASS: 0-49 points RE-INSPECTION REQUIRED: 50-109 points CLOSED: 110+ points

Observed Violations (See additional pages if necessary)

#### 1. Person in charge present, demonstrates knowledge and performs duties

This is a Priority Foundation item

2-102.11 (A), (B), (C)(1), and (4-16) - Demonstration (Pf)

Observation: Workers must have basic food safety knowledge as it applies to their job duties. Food safety training needs to be provided. Larimer County CSU Extension Food Safety Program offers training for food service workers that covers the basic requirements for safe food handling. For more information and class schedule please visit: https://www.larimer.gov/extension/food-safety

#### 2. Certified Food Protection Manager

This is a Core item

2-102.12 (A) and (B) - Certified Food Protection Manager

Observation: There is no evidence of a Certified Food Protection Manager being employed at the time of the inspection.

->It is required that at least one person with managerial oversite is a Certified Food Protection Manager.

\*For a list of Certified Food Protection Manager training classes and exams, please visit: https://www.larimer.org/health/safety-

Correct by 04/26/2024

## 3. Management, food employee and conditional employee; knowledge, responsibilities and reporting

This is a Priority Foundation item

2-103.11 (O) - Person in Charge-Duties (Pf)

Observation: There is no evidence that employees have been trained on their responsibility to report illness to management.

- ->Employees are required to report illnesses to management.
- ->The establishment should develop a written sick employee policy. The policy should address the employee requirement to report to management that they are ill, when to exclude a food employee who is sick, when the food employee can return to work, and how the excluded food employee is to be managed upon return.
- \* For a sample Employee Illness Policy Contract please visit: https://www.larimer.org/sites/default/files/uploads/2017/lcdhe-employee-illness-policy-contract.pdf

Correct by 02/02/2024

#### 5. Procedures for responding to vomiting and diarrheal events

This is a Priority Foundation item

2-501.11 - Clean-up of Vomiting and Diarrheal Events (Pf)

Observation: Person in charge unsure of how to clean up a high hazard bodily fluid incident.

->Food establishment must be able to demonstrate procedures for employees to follow when responding to vomiting or diarrheal events that involve the discharge of vomitus or fecal matter onto surfaces in the food establishment.

#### Observed Violations (See additional pages if necessary)

\*For a printable guidance document regarding Clean-up Procedures for Vomit/Fecal Events, please visit: https://www.larimer.org/sites/default/files/uploads/2017/lcdhe-vomit-diarrheal-guidance.pdf

(Corrected on Site)

#### 10. Adequate handwashing sinks properly supplied and accessible

This is a Priority Foundation item

5-205.11 - Using a Handwashing Sink- Operation and Maintenance (Pf)

This is a Priority Foundation item

6-301.11 - Handwashing Cleanser- Availability (Pf)

This is a Priority Foundation item

6-301.12 - Hand Drying Provision (Pf)

Observation: Hand washing sink next to the 3 compartment sink not supplied with soap and paper towels at the time of the inspection.

Hand sink next to the reach in freezer and slicer had the water turned off at the time of the inspection.

Hand sink in the front outdoor bar area noted with paper towels stuffed down the drain rendering it inoperable.

- ->Handwashing sinks must be kept accessible for use at all times.
- ->Handwashing sinks must be provided in food preparation areas, serving areas where unpackaged food, ice and beverages are served, and in warewashing areas to facilitate adequate hand washing. Provide a hand washing sink, plumbed with both hot and cold running water and supplied with hand soap and dispensed hand towels.
- ->Provide dispensed hand towels and hand soap at handwashing sinks at all times so workers can properly wash their hands.

Correct by 02/02/2024

#### 15. Food separated and protected

This is a Priority item

3-302.11 (A) (1-2) - Raw Animal Food- Separation, Packaging, and Segregation (P)

Observation: Shell eggs observed over ready to eat foods like butter in the walk-in cooler.

- ->Keep raw animal foods separate and below produce, prepared foods and other ready-to-eat foods to prevent cross contamination.
- \*Cooler reorganized as requested.

(Corrected on Site)

#### 16. Food contact surfaces; cleaned and sanitized

This is a Priority item

4-501.114 - Warewashing Equipment, Chemical Sanitization- Temperature, pH, Concentration, and Hardness (P)

#### Observed Violations (See additional pages if necessary)

Observation: Dish machine measured a concentration of sanitizer below 50 ppm. Dish machine run 3 times.

->Dish machine must provide a sanitizer concentration of 50-200 ppm chlorine at the dish surface to sanitize dishes, equipment and utensils. Repair machine as needed. Use sanitizer test kits to verify sanitizer is at correct concentration.

#### 19. Proper reheating procedures for hot holding

This is a Priority item

3-403.11 - Reheating for Hot Holding (P)

Observation: Establishment was conducting reheating of items to be hot held in the steam table.

- ->Do not use steam tables or warming cabinets to reheat foods. These units are not designed for rapid reheating of foods.
- ->Foods were reheated to greater than 165 F on the stove top as requested.

(Corrected on Site)

#### 23. Proper date marking and disposition

This is a Priority Foundation item 3-501.17 - Ready-to-Eat TCS Food, Date Marking (Pf)

Observation: Sliced deli turkey roll ups and chili were both well past their 7 day date marking limit. Items dated 12/24.

- ->Proper date marking is day of preparation (Day 1) + 6 additional days = 7 day total hold time.
- ->Ready-to-eat foods that are held refrigerated for more than 24 hours must be clearly marked with the date the product packaging is opened or the date the product is made. These foods must be consumed, sold, served or discarded within 7 days to control exposure to Listeria monocytogenes bacteria.
- \*Product discarded as requested. See Voluntary Condemnation Agreement.

(Corrected on Site)

#### 25. Consumer advisory provided for raw/undercooked food

This is a Priority Foundation item

3-603.11 - Consumer Advisory, Animal Foods that are Not Processed to Eliminate Pathogens (Pf)

Observation: Menu has an advisory statement but does not have a disclosure stating which items contain raw or undercooked ingredients.

->Provide a disclosure statement that identifies the animal foods that are to be served raw or lightly cooked. The disclosure can be a description such as: "hamburgers can be cooked to order", and by asterisking the food items to a footnote that states, "\*These items are served raw or undercooked." or "These items contain or may contain raw or undercooked ingredients."

Correct by 02/26/2024

#### Observed Violations (See additional pages if necessary)

#### 28. Toxic substances properly identified, stored, and used

This is a Priority Foundation item

7-102.11 - Common Name - Working Containers (Pf)

Observation: Multiple spray bottles of chemicals were not labeled with their contents.

->Label containers of chemicals and toxics so contents of the container can be easily identified to help prevent misuse.

#### 33. Proper cooling methods used; adequate equipment for temperature control

This is a Priority Foundation item

4-301.11 - Cooling, Heating, and Holding Capacities - Equipment (Pf)

Observation: The only make table cooler in the kitchen was not functional at the time of the inspection. Employees were going into the walk-in cooler to prepare every order.

- ->Repair/provide mechanical point of use refrigeration to maintain foods at less than 41 F. Use of ice baths to hold foods less than 41 F is not approved for cold holding of foods.
- ->Repair/replace refrigeration equipment to maintain foods at less than 41 F.

Correct by 01/30/2024

#### 35. Approved thawing methods

This is a Core item 3-501.13 - Thawing

Observation: Meats observed thawing in the prep sink in standing water.

- ->Discontinue thawing foods in standing water.
- ->Foods must be thawed in a refrigerator at temperatures less then 41 F, under cold running water (under 70 F), or as part of the cooking process.

\*Water turned on to be running as requested.

(Corrected on Site)

#### 47. Food and non-food contact surfaces cleanable, properly designed, constructed, and used

This is a Core item

4-501.11 - Good Repair and Proper Adjustment - Equipment

Observation: Dish machine started overflowing while it was running.

- ->Repair equipment to properly function.
- \*Repair person called at the time of the inspection.

Correct by 02/02/2024

Observed Violations (See additional pages if necessary)					
<ul><li>55. Physical facilities installed, maintained, and clean</li><li>This is a Core item</li><li>6-501.11 - Repairing - Premises, Structures, Attachments, and Fixtures - Methods</li></ul>					
Observation: PVC piping on the hand sink closest to the walk-in cooler draining some onto the floor.					
->Adjust PVC piping to properly drain to the floor drain.					
Floor in front of the 3 compartment sink in disrepair with exposed wood showing through.					
-> Repair floor to be smooth, durable, and easily cleanable.					
Correct by 02/02/2024

General	Comment	S

#### **GENERAL COMMENTS**

Inspection with risk index rating >110 point/establishment must close....Based on the inspection findings on this date this establishment's retail food license is summarily suspended in accordance with CRS 25-4-1611.5(9)(c) and the facility is hereby ordered to cease all food preparation and to close. The license suspension is to remain in effect until the violations and public health concerns identified in the inspection have been corrected or adequately addressed and approval to reopen has been granted by the Department. Establishment closed as requested.

Conditions of reopening are:

Limited menu approved by health department is to be served the until make table cooler can be repaired and verified to be working by the health department.

Dish machine repair person is to be called at the time of the inspection. Sanitizer compartment in the 3 compartment sink set up and utilized until the dish machine is verified to be repaired and properly sanitizing.
