43	☐	Single-use/single-service articles; properly stored, used			☐	☐	1										
44	☐	Gloves used properly			☐	☐	1										

Failure to correct any violations of risk factor items within ten (10) days may result in suspension of your food service establishment permit. Repeated violation of an identical risk factor may result in revocation of your food service establishment permit. Items identified as constituting imminent health hazards shall be corrected immediately or operations shall cease. You are required to post the food service establishment permit in a conspicuous manner and post the most recent inspection report in a conspicuous manner. You have the right to request a hearing regarding this report by filing a written request with the Commissioner within ten (10) days of the date of this report. TCA Sections 68-14-703, 68-14-706, 68-14-708, 68-14-709, 68-14-711, 68-14-715, 68-14-716, 4-5-329.

Signature of Person In Charge [Signature] Date 03/25/2022 Signature of Environmental Health Specialist [Signature] Date 03/25/2022

Description
1. The first step in the process of creating a new product is to identify a market need. This involves conducting market research to determine what consumers want and what problems they are trying to solve.
2. Once a market need has been identified, the next step is to develop a concept for a product that meets that need. This involves brainstorming ideas and selecting the most promising one.
3. The third step is to create a prototype of the product. This allows the company to test the product and make any necessary adjustments before moving forward with production.
4. The fourth step is to conduct a pilot run of the product. This allows the company to test the product in a real-world setting and gather feedback from customers.
5. The final step is to launch the product into the market. This involves creating a marketing plan and promoting the product to potential customers.
