43	<input type="radio"/>	Single-use/single-service articles; properly stored, used			<input type="radio"/>	<input type="radio"/>	1								
44	<input type="radio"/>	Gloves used properly			<input type="radio"/>	<input type="radio"/>	1								

Failure to correct any violations of risk factor items within ten (10) days may result in suspension of your food service establishment permit. Repeated violation of an identical risk factor may result in revocation of your food service establishment permit. Items identified as constituting imminent health hazards shall be corrected immediately or operations shall cease. You are required to post the food service establishment permit in a conspicuous manner and post the most recent inspection report in a conspicuous manner. You have the right to request a hearing regarding this report by filing a written request with the Commissioner within ten (10) days of the date of this report. T.C.A. sections 68-14-703, 68-14-706, 68-14-708, 68-14-709, 68-14-711, 68-14-715, 68-14-716, 4-5-320.

Description
1. The first step in the process of creating a new product is to identify a market need. This involves conducting market research to determine what consumers want and what problems they are trying to solve.
2. Once a market need has been identified, the next step is to develop a concept for a product that meets that need. This involves brainstorming ideas and creating a prototype.
3. The third step is to conduct a feasibility study to determine if the product is viable. This involves analyzing the market, the competition, and the potential for profitability.
4. If the feasibility study is positive, the next step is to develop a business plan. This involves outlining the company's goals, strategies, and financial projections.
5. The final step is to launch the product and monitor its performance. This involves marketing the product, distributing it, and gathering feedback from customers.
