Burittos were discarded.

Sausage patty and cooked bacon have been sitting in the oven for an hour with the heat turn off (according to person in charge ). Sausage patty temperature was 89 degrees F. I told person in charge to take out oven an place in refrigerator since its only been 1 hour since food finished cooking.

I asked person in charge how do she wash her dishes using the 3 compartment sink. She demonstrated how she wash and rinse her dishes. I asked "when do you use your bleach"? She said onlywhen something has oil on it. I informed her that she must use bleach each and every time she wash her dishes. Intold her to follow the wash,rinse and sanitize labels on her sink.

Cooling Method: cooling starts when food reaches 135 degrees F. On e food reaches 135 degrees F, you have 2 hoursto get foodto 70 degrees F. Once food reaches 70 degrees F, you have 4 hours for food to reach 41 degrees or below.

I will email Person in charge the cooling fact sheet.

I spoke with owner of building about replacing the dumpster. He stated that he called two months ago and follow up with them once a week after that . They told hi, that they can not replace the lid but they can replace the dumpster and to give them time to come out and replace dumpster.
